

### Loughton Wombles Newsletter No. 3

Loughton Wombles successfully carried out their third group litter pick on Saturday 12 February 2022.

The Loughton Wombles met in two locations, one group at the corner of Marlescroft Way, off Oakwood Hill land the second group at the corner of Newmans Lane and Rectory Lane.

Our next group meeting will be on **Saturday 26 March at 10.30am**. Meeting points to be advised nearer the date once we know numbers who will be attending and where you are coming from. Please let us know if you are able to attend. It really helps us work out how many different locations we can cover each time.

We would really like another volunteer co-ordinator to assist with organising future litter picks, please inform me if you are interested, it will just be a matter of liaising with a small number of other Wombles to organise future litter picks.

Please let us know whether you go out, either on your own or in small 'womble' groups in the meantime ? It will assist us in understanding the impact we are making in the community.

Please see some photos below of our Wombles out on the last litter pick, who even got a glimpse of sunshine! Any litter removed helps wildlife and creates a better space for humans too! Counteract litterbugs by being a Loughton Womble – spread the word.

Once again may we thank you for your support.

Regards Debbie & Mark
